**C FW**

I am from Sutton-in-Ashfield, Nottinghamshire. I studied Art and Design at both GCSE and A-level but have always been creative since childhood.

I am currently a registered nurse and continue to create artwork in my spare time as a hobby, such as painting and making. The basis of most of my materials are either natural or given by nature, such as driftwood, fallen trees and reclaimed items. I have recently started entering my artwork into competitions as I like sharing my work with other people and enjoy the challenge.

I often create my work in either my dining room or at the side of a lake or pond.
