R NW (Light refreshments - Tea, Coffee. It is a garden studio, so accessed across the lawn.)

Charlotte Thomson-Morley is a Nottinghamshire based illustrative painter and printmaker. She started her practice in 2005 and now specialises in figurative art depicting fat bodies and symbolic imagery from nature and archeological finds. Her work explores the intersection of feminism, archeology and our spiritual connection with the land and nature. Charlotte works both relief and intaglio printmaking methods and explores paint-making using materials derived from nature.

Charlotte will be a guest at the studio of jewellery maker and lace artist JC Middlebrook (Jayne Childs).
