PRINTMAKING – *Lino printmaker from Nottinghamshire. All prints are handcarved and handprinted onto eco-friendly papers. I use black ink as a contrast to my detailed botanical designs.*

I am a lino printmaker based in Newark, Nottinghamshire. I first learnt about printmaking at college in 2016 and I opened my shop during lockdown in 2020 after purchasing a lino kit and exploring the technique further. I work full time so I fit printmaking into any free time I get in my studio at home in my loft room! All of my prints are based on botanicals and insects, all of which I have used my own plants or photographs for inspiration.
