C NW (There are cafes, restaurants and shops in the village and a corner shop nearby. Access to garden but not studio – items can be brought out to view)

East Midlands ceramic artist Sarah Burton has been making pottery for over 40 years and during that time has found the draw to the sea an evocative influence on the ceramics she makes. Using a palette of vibrant blue and turquoise glazes to hand decorate the organic shapes Sarah makes one off statement vases and bowls in her garden studio in Nottinghamshire. Sarah uses traditional hand building techniques of coiling and slab building and fires all her work in an electric kiln.
