R PW (Studio is small so a wheelchair may not be able to get right inside. Street parking)

I am a retired dentist. I started pottery 9 years ago in a class led by Rachel Wood, a ceramic artist. When the class had to close, I set up my own studio in a single wooden garage in my drive. I have MS so I do not have far to go to my pottery. I mainly throw my pots but do a little hand building as well. I enjoy welcoming people to my pottery & sell my work mainly to cover the costs of my hobby & to support my charities.
